## **1. Introduction**

Schools and their staff form part of the wider safeguarding system for children. Everyone who comes into contact with children and their families and carers has a role to play in safeguarding children. In order to fulfil this responsibility effectively, all professionals should make sure their approach is child-centred. This means that they should consider, at all times, what is in the best interests of the child.

*(Keeping Children Safe in Education – DfE, 2022)*

This Child Protection policy is for all staff, parents, governors, volunteers and the wider school community. It forms part of the safeguarding arrangements for our school and should be read in conjunction with the following:

- Keeping Children Safe in Education (DfE, 2022)
- the school’s Behaviour policy;
- the Staff Behaviour policy (sometimes called Staff Code of Conduct);
- the safeguarding response to children missing from education
- the role of the designated safeguarding lead (Annex C of KCSIE)

Safeguarding and promoting the welfare of children (*everyone under the age of 18*) is defined in Keeping Children Safe in Education as:

- Protecting children from maltreatment
- Preventing impairment of children’s mental and physical health or development
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- Taking action to enable all children to have the best outcomes

Our school has a whole-school approach to safeguarding, which ensures that keeping children safe is at the heart of everything we do, and underpins all systems, processes and policies. It is important that our values are understood and shared by all children, staff, parents/carers, governors and the wider school community. Only by working in partnership, can we truly keep children safe.

## 2. **Statutory framework**

There is government guidance set out in [Working Together \(DfE, 2018\)](#) on how agencies must work in partnership to keep children safe. This guidance places a shared and equal duty on three Safeguarding Partners (the Local Authority, Police and Health) to work together to safeguard and promote the welfare of all children in their area under multi-agency safeguarding arrangements. These arrangements sit under the [Essex Safeguarding Children Board](#) (ESCB). In Essex, the statutory partners are Essex County Council, Essex Police and three NHS Integrated Care Boards covering the county.

Section 175 of the Education Act 2002 (*Section 157 for Independent schools*) places a statutory responsibility on the governing body to have policies and procedures in place that safeguard and promote the welfare of children who are students of the school.

In Essex, all professionals must work in accordance with the [SET Procedures](#). Our school also works in accordance with the following legislation and guidance (*this is not an exhaustive list*):

- [Keeping Children Safe in Education \(DfE 2022\)](#)
- [Working Together \(DfE, 2018\)](#)
- Education Act (2002)
- [Essex Effective Support](#) (2021)
- [Counter-Terrorism and Security Act \(HMG, 2015\)](#)
- [Serious Crime Act 2015](#) (Home Office, 2015)
- Children and Social Work Act (2017)
- [Children Missing Education - statutory guidance for local authorities \(DfE, 2016\)](#)
- Sexual Offences Act (2003)
- Education (Pupil Registration) Regulations 2006
- [Information sharing advice for safeguarding practitioners \(HMG, 2018\)](#)
- [Data Protection Act \(2018\)](#)
- [What to do if you're worried a child is being abused](#) (HMG, 2015)
- Children Act (1989)
- Children Act (2004)
- [Preventing and Tackling Bullying \(DfE, 2017\)](#)
- Female Genital Mutilation Act 2003 (S. 74 - Serious Crime Act 2015)
- [Preventing youth violence and gang involvement \(Home Office, 2015\)](#)
- [Criminal Exploitation of children and vulnerable adult - county lines guidance \(Home Office, 2018\)](#)
- [Teaching on-line safety in schools \(DfE, 2019\)](#)
- [Education Access Team CME / Home Education policy and practice \(ECC, 2018\)](#)
- [Behaviour in Schools \(DfE 2022\)](#)
- [Suspension and permanent exclusion in schools, academies and PRUs, including pupil movement \(DfE 2022\)](#)
- [Searching, screening and confiscation \(DfE 2022\)](#)
- [Let's talk: reducing the risk of suicide \(ESCB 2022\)](#)
- [Understanding and Supporting Behaviour - good practice for schools \(ECC, 2021\)](#)

### **3. Roles and responsibilities**

All adults working with or on behalf of children have a responsibility to protect them and to provide a safe environment in which they can learn and achieve their full potential. However, there are key people within schools and the Local Authority who have specific responsibilities under child protection procedures. The names of those in our school with these specific responsibilities (the designated safeguarding lead and deputy designated safeguarding lead) are shown on the cover sheet of this document. However, we are clear that safeguarding is everyone's responsibility and that everyone who comes into contact with children has a role to play.

#### **3.1 The Local Governance Committee**

The Local Governance Committee ensures that the policies, procedures and training in our school are effective and comply with the law at all times. It ensures that all required policies relating to safeguarding are in place, that the child protection policy reflects statutory and local guidance and is reviewed at least annually.

The governor for safeguarding arrangements is named on the front cover of this document. This governor takes strategic responsibility at Local Governance Committee level for safeguarding arrangements in our school. The Local Governance Committee ensures there is a named designated safeguarding lead and at least one deputy safeguarding lead in place (also named on the front cover).

The Local Governance Committee ensures the school contributes to inter-agency working, in line with statutory and local guidance. It ensures that information is shared and stored appropriately and in accordance with statutory requirements.

The Local Governance Committee ensures that all adults in our school who work with children undergo safeguarding and child protection training at induction as appropriate and that it is regularly updated. All staff members receive regular safeguarding and child protection updates, at least annually, to provide them with the relevant skills and knowledge to keep our children safe.

The Local Governance Committee ensures our students are taught about safeguarding (including online safety) through teaching and learning opportunities as part of a broad and balanced curriculum. We work in accordance with government regulations which make the subjects of Relationships Education (for primary age students) and Relationships and Sex Education (for secondary age students) and Health Education (for all students in state-funded schools) mandatory.

The Local Governance Committee and school leadership team are responsible for:

- ensuring we have in place safer recruitment procedures that help to deter, reject or identify people who might abuse children
- ensuring we meet statutory responsibilities to check adults working with children and have recruitment and selection procedures in place (see the school's 'Safer Recruitment' policy for further information)
- ensuring volunteers are appropriately supervised in school

### **3.2 The Headteacher**

The Teachers' Standards 2012 state that teachers (which includes headteachers) should safeguard children's wellbeing and maintain public trust in the teaching profession as part of their professional duties. Our headteacher works in accordance with all statutory requirements for safeguarding and is responsible for ensuring that safeguarding policies and procedures adopted by the Local Governance Committee are followed by all staff.

### **3.3 The Designated Safeguarding Lead (and Deputy / Deputies)**

The designated safeguarding lead in school has ultimate lead responsibility for safeguarding and child protection. Their role includes managing child protection referrals, working with other agencies, ensuring all staff are appropriately trained and raising awareness of all safeguarding and child protection policies and procedures. They ensure that everyone in school (including temporary staff, volunteers and contractors) is aware of these procedures and that they are followed at all times. They act as a source of advice and support for other staff (on child protection matters) and ensure that any referrals to Essex Children's Social Care (Children and Families Hub) are made in a timely way and in accordance with current SET procedures. They work with the local authority and the ESCB as required and ensure that information is shared appropriately.

The deputy designated safeguarding leads are trained to the same standard as the designated safeguarding lead. If for any reason the designated safeguarding lead is unavailable, the deputy designated safeguarding leads will act in their absence.

### **3.4 All school staff**

Everyone in our school has a responsibility to provide a safe learning environment where our children can learn. All staff are aware of the types of abuse and safeguarding issues that can put children at risk of harm, so we are able to identify children who may be in need of help or protection. We understand that behaviours linked to issues such as drug taking and/or alcohol misuse, missing education and consensual/non-consensual sharing of nudes and semi-nudes images can be signs that children are at risk. In addition, we recognise that any child may benefit from additional help and all staff members are aware of the local early help process and our role in it.

All staff members are aware of and follow school processes (as set out in this policy) and are aware of how to make a referral to Social Care, if there is a need to do so. Staff understand that, if they have any concerns about a child's welfare, they must act on them immediately and speak with the designated safeguarding lead (or deputy) – we do not assume that others have taken action.

Our staff understand that children may not always feel able or know how to tell someone that they are being abused, perhaps because they are embarrassed or they may not always recognise that they are being abused. We recognise there are many factors which may impact on our children's welfare and safety and understand safeguarding in the wider context (contextual safeguarding). We also understand that abuse, neglect and safeguarding issues are rarely 'stand-alone' events and that, in most cases, multiple issues will overlap.

Our staff will always reassure children who report abuse / victims of abuse that they are taken seriously and that they will be supported and kept safe. We will never make a child feel ashamed for reporting abuse, nor make them feel they are causing a problem.

#### **4. Types of abuse / specific safeguarding issues**

Keeping Children Safe in Education describes abuse as ‘a form of maltreatment of a child’. It sets out that:

*“Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or another child or children”*

The guidance refers to four main categories of abuse:

- **Physical:** a form of abuse causing physical harm to a child – this includes where an adult fabricates or deliberately induces illness in a child
- **Emotional:** the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child’s emotional development
- **Sexual:** forcing or enticing a child to take part in sexual activities (through actual physical or online contact)
- **Neglect:** the persistent failure to meet a child’s basic physical and/or psychological needs, likely to result in the serious impairment of the child’s health or development

In addition, Annex B of Keeping Children Safe in Education contains important information about specific forms of abuse and safeguarding issues:

#### **4.1 Child criminal exploitation (CCE) and Child Sexual Exploitation (CSE)**

Both CCE and CSE are forms of abuse that occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity, in exchange for something the victim needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat of violence. CSE and CCE can affect children, both male and female and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation.

Some specific forms of CCE can include children being forced or manipulated into transporting drugs or money through county lines, working in cannabis factories, shoplifting or pickpocketing. They can also be forced or manipulated into committing vehicle crime or threatening/committing serious violence to others.

Child Sexual Exploitation (CSE) is a form of child abuse, which can happen to boys and girls from any background or community. It may occur over time or be a one-off occurrence. In Essex, the definition of Child Sexual Exploitation (CSE) from the Department of Education (DfE, 2017) has been adopted:

*“Child Sexual Exploitation is a form of child sexual abuse. It occurs when an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under*

*the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology".*

It is understood that a significant number of children who are victims of CSE go missing from home, care and education at some point. Our school is alert to the signs and indicators of a child becoming at risk of, or subject to, CSE and will take appropriate action to respond to any concerns. The designated safeguarding lead will lead on these issues and work with other agencies as appropriate.

#### **4.2 Child on child abuse**

We recognise that our school may be the only stable, secure and safe element in the lives of children at risk of, or who have suffered, harm and trauma. Nevertheless, whilst at school, their behaviour may be challenging and defiant, or they may instead be withdrawn, or display abusive behaviours towards other children. Our school recognises that some children may abuse their peers and that this may happen in school, or outside of it. Any incidents of child on child abuse will be managed in the same way as any other child protection concern and we will follow the same procedures. We will seek advice and support from other agencies as necessary and ensure that appropriate agencies are involved when required.

Our school understands that even though child on child abuse/harmful sexual abuse may not be reported, it is likely that it is occurring and we are clear there is a zero tolerance approach to inappropriate or abusive behaviour. We understand the barriers which may prevent a child from reporting abuse and work actively to remove these.

Child on child abuse can manifest itself in many ways. This may include bullying (including cyber bullying), physical abuse, sexual violence/sexual harassment, 'up-skirting', 'sexting' or initiation/hazing type violence and rituals. We do not tolerate harmful behaviour of any kind in school and will take swift action to intervene where this occurs, challenging inappropriate behaviours when they occur – we do not normalise abuse, nor allow a culture where it is tolerated.

We use lessons and assemblies to help children understand, in an age-appropriate way, what abuse is and we encourage them to tell a trusted adult if someone is behaving in a way that makes them feel uncomfortable. Our school understands the different gender issues that can be prevalent when dealing with child on child abuse. We will never make a child feel ashamed for reporting abuse, nor that they are creating a problem by doing so.

The Colne Community School has policies on [Harmful sexual behaviour and Child on Child abuse](#), [Anti-Bullying and Behaviour](#).

#### **4.3 Children missing from education**

All children, regardless of their age, ability, aptitude and any special education needs they may have, are entitled to a full-time education. Our school recognises that a child missing education is a potential indicator of abuse or neglect and we follow the procedures for unauthorised absence and for children missing education. It is also recognised that, when not in school, children may be vulnerable to or exposed to other risks, so we work with parents/carers and other partners to keep

children in school whenever possible. Parents are required to provide at least two emergency contact numbers to the school, to enable us to communicate with someone if we need to.

Parents should always inform us of the reason for any absence. Where contact is not made, a referral may be made to another appropriate agency ([Education Access Team](#), Social Care or Police). Our school must inform the local authority of any student who has been absent without school permission for a continuous period of 10 days or more.

We work in accordance with the Essex Protocol for children who go missing during the school day (see Appendix C), to ensure that there is an appropriate response to children who go missing.

#### **4.4 Contextual safeguarding**

We understand that safeguarding incidents and behaviours can be associated with factors outside our school. All staff are aware of contextual safeguarding and the fact that they should consider whether wider environmental factors present in a child's life are a threat to their safety and/or welfare. We always consider relevant information when assessing any risk to a child and share it with other agencies when appropriate to support better understanding of a child and their family.

#### **4.5 Domestic abuse**

Domestic abuse can involve a wide range of behaviours and can include intimate partner violence, abuse by family members, teenage relationship abuse and child to parent abuse. We understand that anyone can be a victim of domestic abuse, and that it can take place inside or outside of the home.

Our school recognises that exposure to domestic abuse (either by witnessing or experiencing it) can have a serious, long-term emotional and psychological impact on children. We work with other key partners and we receive/share relevant information where there are concerns that domestic abuse may be an issue for a child or family or be placing a child at risk of harm.

#### **4.6 Harmful sexual behaviour**

We understand that children's sexual behaviours exist on a continuum, ranging from age-appropriate/developmental to inappropriate/problematic/abusive. We also understand that harmful sexual behaviour and child on child abuse can occur between children of any age and gender, either in person or online. We recognise that children who display harmful sexual behaviour may have experienced their own abuse and trauma, and we will support them accordingly.

Our school has a 'zero-tolerance' approach to harmful sexual behaviour of any kind, and any inappropriate behaviour is challenged and addressed. We work in accordance with all statutory guidance in relation to such behaviours and with other agencies as appropriate.

We seek to teach our students about healthy and respectful relationships, boundaries and consent, equality, the law and how to keep themselves safe (on and offline). [RSE and Health Education Policy](#)

#### **4.7 Mental health**

Positive mental health is the concern of the whole community and we recognise that schools play a key part in this. Our school aims to develop the emotional wellbeing and resilience of all students and staff, as well as provide specific support for those with additional needs. We understand that

there are risk factors which increase someone's vulnerability and protective factors that can promote or strengthen resilience. The more risk factors present in an individual's life, the more protective factors or supportive interventions are required to counter-balance and promote further growth of resilience.

Our staff are aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. We understand that, where children have suffered abuse or other potentially traumatic adverse childhood experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. Where we have concerns this may impact on mental health, we will seek advice and work with other agencies as appropriate to support a child and ensure they receive the help they need.

It is vital that we work in partnership with parents/carers to support the wellbeing of our students. We expect parents/carers, if they have any concerns about the wellbeing of their child, to share this with us, so we can ensure that appropriate support and interventions can be identified and implemented.

#### **4.8 Online safety**

We recognise that our children are growing up in an increasingly complex world, living their lives on and offline. Whilst this presents many positive and exciting opportunities, we recognise it also presents challenges and risks, in the form of:

- **content:** being exposed to illegal, inappropriate or harmful material; for example pornography, fake news, suicide, racist or radical and extremist views;
- **contact:** being subjected to harmful online interaction with other users; for example peer to peer pressure, commercial advertising as well as adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes;
- **conduct:** personal online behaviour that increases the likelihood of, or causes, harm; for example making, sending and receiving explicit images, or online bullying
- **commerce:** risks such as online gambling, inappropriate advertising, phishing and/or financial scams

All staff in our school are aware of the risks to children online. We understand any child can be vulnerable online, and that their vulnerability can vary according to age, developmental stage and personal circumstances. We aim to equip all our students with the knowledge they need to use the internet and technology safely, and we want to work with parents to support them to keep their children safe online.

#### **4.9 Prevention of radicalisation**

As of July 2015, the [Counter-Terrorism and Security Act \(HMG, 2015\)](#) placed a new duty on schools and other education providers. Under section 26 of the Act, schools are required, in the exercise of their functions, to have "due regard to the need to prevent people from being drawn into terrorism". This duty is known as the Prevent duty.

It requires schools to:

- teach a broad and balanced curriculum which promotes spiritual, moral, cultural, mental and physical development of students and prepares them for the opportunities, responsibilities and experiences of life and must promote community cohesion
- be safe spaces in which children/young people can understand and discuss sensitive topics, including terrorism and the extremist ideas that are part of terrorist ideology, and learn how to challenge these ideas
- be mindful of their existing duties to forbid political indoctrination and secure a balanced presentation of political issues

Channel is a national programme which focuses on providing support at an early stage to people identified as vulnerable to being drawn into terrorism. If a child on roll at our school is referred to the Channel Panel, a representative from the school may be asked to attend the Channel Panel to help with an assessment and support plan.

Our school operates in accordance with local procedures for PREVENT and with other agencies, sharing information and concerns as appropriate. Where we have concerns about extremism or radicalisation, we will seek advice from appropriate agencies and, if necessary, refer to Social Care and/or the Channel Panel.

#### **4.9 Serious violence**

All staff are aware of the risk factors and indicators which may signal that children are at risk from, or involved with, serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in well-being, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that a child has been approached by, or is involved with, individuals associated with criminal networks or gangs.

#### **4.10 So-called ‘honour-based violence’ (including Female Genital Mutilation and forced marriage)**

So-called ‘honour’-based abuse (HBA) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing. We understand that this form of abuse often involves a wider network of family or community pressure and can include multiple perpetrators.

Female Genital Mutilation (FGM) comprises all procedures involving partial or total removal of the external female genitalia or other injury to female genital organs. It is illegal in the UK and is a form of child abuse.

As of October 2015, the Serious Crime Act 2015 (Home Office, 2015) introduced a duty on teachers (and other professionals) to notify the police of known cases of FGM where it appears to have been carried out on a girl under the age of 18. Our school operates in accordance with the statutory requirements relating to this issue, and in line with local safeguarding procedures.

A forced marriage is one entered into without the full consent of one or both parties. It is where violence, threats or other forms of coercion is used and is a crime. Our staff understand how to report concerns where this may be an issue.

### **5. Children potentially at risk of greater harm**

We recognise that some children may potentially be at risk of greater harm and require additional help and support. These may be children with a Child in Need or Child Protection Plan, those in care or previously in care or those requiring mental health support. We work with Social Care and other appropriate agencies to ensure there is a joined-up approach to planning for these children and that they receive the right help at the right time.

Our school understands that children with special educational needs (SEN) and/or disabilities can face additional safeguarding challenges. Barriers can exist when recognising abuse and neglect in this group of children. These can include:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability, without further exploration
- That they may be more prone to peer group isolation than others
- The potential to be disproportionately impacted by things like bullying, without outwardly showing signs
- Communication difficulties in overcoming these barriers

## **6. Recognising abuse and taking action**

Staff, volunteers and governors must follow the procedures set out below in the event of a safeguarding issue.

Please note – in this and subsequent sections, you should take any references to the DSL to mean “the DSL (or deputy DSL)”.

### **6.1 If a child is suffering or likely to suffer harm, or in immediate danger**

If during school hours, it comes to your attention that you believe a child is suffering or likely to suffer from harm, or is in immediate danger, this should be reported to the DSL via the school's established procedures.

If outside of school hours, you should make a referral to children's social care and/or the police immediately if you believe a child is suffering or likely to suffer from harm, or is in immediate danger. Anyone can make a referral.

Tell the DSL as soon as possible if you make a referral directly, you can use the website or telephone: <https://www.essex.gov.uk/topic/report-a-concern-about-a-child>

0345 603 7627 (9am to 5pm) or 034 5606 1212 (out of hours)

### **6.2 If a child makes a disclosure to you**

If a child discloses a safeguarding issue to you, you should:

- Listen to and believe them. Allow them time to talk freely and do not ask leading questions
- Stay calm and do not show that you are shocked or upset
- Tell the child they have done the right thing in telling you. Do not tell them they should have told you sooner
- Explain what will happen next and that you will have to pass this information on. Do not promise to keep it a secret
- Write up your conversation as soon as possible in the child's own words. Stick to the facts, and do not put your own judgement on it
- Sign and date the write-up and pass it on to the DSL. Alternatively, if appropriate, make a referral to children's social care and/or the police directly (see 7.1), and tell the DSL as soon

as possible that you have done so. Aside from these people, do not disclose the information to anyone else unless told to do so by a relevant authority involved in the safeguarding process

**Bear in mind that some children may:**

- Not feel ready, or know how to tell someone that they are being abused, exploited or neglected
- Not recognise their experiences as harmful
- Feel embarrassed, humiliated or threatened. This could be due to their vulnerability, disability, sexual orientation and/or language barriers

None of this should stop you from having a 'professional curiosity' and speaking to the DSL if you have concerns about a child.

**6.3 If you discover that FGM has taken place or a student is at risk of FGM**

Keeping Children Safe in Education explains that FGM comprises "all procedures involving partial or total removal of the external female genitalia, or other injury to the female genital organs".

FGM is illegal in the UK and a form of child abuse with long-lasting, harmful consequences. It is also known as 'female genital cutting', 'circumcision' or 'initiation'.

Possible indicators that a student has already been subjected to FGM, and factors that suggest a student may be at risk, are set out in appendix 4 of this policy.

**Any teacher** who either:

- Is informed by a girl under 18 that an act of FGM has been carried out on her; or
- Observes physical signs which appear to show that an act of FGM has been carried out on a girl under 18 and they have no reason to believe that the act was necessary for the girl's physical or mental health or for purposes connected with labour or birth

Must immediately report this to the police, personally. This is a mandatory statutory duty, and teachers will face disciplinary sanctions for failing to meet it.

Unless they have been specifically told not to disclose, they should also discuss the case with the DSL and involve children's social care as appropriate.

**Any other member of staff** who discovers that an act of FGM appears to have been carried out on a **student under 18** must speak to the DSL and follow our local safeguarding procedures.

The duty for teachers mentioned above does not apply in cases where a student is *at risk* of FGM or FGM is suspected but is not known to have been carried out. Staff should not examine students.

**Any member of staff** who suspects a student is *at risk* of FGM or suspects that FGM has been carried out should speak to the DSL.

**6.4 If you have concerns about a child (as opposed to believing a child is suffering or likely to suffer from harm, or is in immediate danger)**

Where possible, speak to the DSL first to agree a course of action.

If in exceptional circumstances the DSL is not available, this should not delay appropriate action being taken. Speak to a member of the senior leadership team and/or take advice from local

authority children's social care. You can also seek advice at any time from the NSPCC helpline on 0808 800 5000. Share details of any actions you take with the DSL as soon as practically possible.

Make a referral to local authority children's social care directly, if appropriate (see 'Referral' below). Share any action taken with the DSL as soon as possible.

### **Early help assessment**

If an early help assessment is appropriate, the DSL will generally lead on liaising with other agencies and setting up an inter-agency assessment as appropriate.

We will discuss and agree, with statutory safeguarding partners, levels for the different types of assessment, as part of local arrangements.

The DSL will keep the case under constant review and the school will consider a referral to local authority children's social care if the situation does not seem to be improving. Timelines of interventions will be monitored and reviewed.

### **Referral**

If it is appropriate to refer the case to local authority children's social care or the police, the DSL will make the referral or support you to do so.

If you make a referral directly (see section 6.1), you must tell the DSL as soon as possible.

The local authority will make a decision within 1 working day of a referral about what course of action to take and will let the person who made the referral know the outcome. The DSL or person who made the referral must follow up with the local authority if this information is not made available, and ensure outcomes are properly recorded.

### **6.5 If you have concerns about extremism**

Where possible speak to the DSL first to agree a course of action.

If in exceptional circumstances the DSL is not available, this should not delay appropriate action being taken. Speak to a member of the senior leadership team and/or seek advice from local authority children's social care. Make a referral to local authority children's social care directly, if appropriate (see 'Referral' above). Inform the DSL or deputy as soon as practically possible after the referral.

Where there is a concern, the DSL will consider the level of risk and decide which agency to make a referral to. This could include [Channel](#), the government's programme for identifying and supporting individuals at risk of being drawn into terrorism, or the local authority children's social care team.

The Department for Education also has a dedicated telephone helpline, 020 7340 7264, which school staff and governors can call to raise concerns about extremism with respect to a student. You can also email [counter.extremism@education.gov.uk](mailto:counter.extremism@education.gov.uk). Note that this is not for use in emergency situations.

In an emergency, call 999 or the confidential anti-terrorist hotline on 0800 789 321 if you:

Think someone is in immediate danger

Think someone may be planning to travel to join an extremist group

See or hear something that may be terrorist-related

### **6.6 If you have a mental health concern**

Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

Staff will be alert to behavioural signs that suggest a child may be experiencing a mental health problem or be at risk of developing one.

If you have a mental health concern about a child that is also a safeguarding concern, take immediate action by following the steps in section 6.4.

If you have a mental health concern that is not also a safeguarding concern, speak to the DSL to agree a course of action.

## **7. Procedures**

Our school works with key local partners to promote the welfare of children and protect them from harm. This includes providing a co-ordinated offer of early help when additional needs of children are identified and contributing to inter-agency plans which provide additional support (through a Child in Need or a Child Protection plan).

All staff members have a duty to identify and respond to suspected/actual abuse or disclosures of abuse. Any member of staff, volunteer or visitor to the school who receives a disclosure or allegation of abuse, or suspects that abuse may have occurred, **must** report it immediately to the designated safeguarding lead (or, in their absence, the deputy designated safeguarding lead).

All action is taken in accordance with the following guidance:

- Essex Safeguarding Children Board guidelines - the SET (Southend, Essex and Thurrock) Child Protection Procedures (ESCB, 2022)
- [Essex Effective Support](#)
- Keeping Children Safe in Education (DfE, 2022)
- Working Together to Safeguard Children (DfE, 2018)
- 'Effective Support for Children and Families in Essex' (ESCB)
- PREVENT Duty - Counter-Terrorism and Security Act (HMG, 2015)

Any staff member or visitor to the school must refer any concerns to the designated safeguarding lead or deputy designated safeguarding lead. Where there is risk of immediate harm, concerns will be referred by telephone to the Children and Families Hub and/or the Police. Less urgent concerns or requests for support will be sent to the Children and Families Hub via [Essex Effective Support](#). The school may also seek advice from Social Care or another appropriate agency about a concern if we are unsure how to respond to it. Wherever possible, we will share any safeguarding concerns, or an intention to refer a child to Children's Social Care, with parents or carers. However, we will not do so where it is felt that to do so could place a child at greater risk of harm or impede a criminal investigation. If it is necessary for another agency to meet with a child in school, we will always seek to inform parents or carers, unless we are advised not to by that agency. On occasions, it may be necessary to consult with the Children and Families Hub and/or Essex Police for advice on when to share information with parents/carers.

All staff understand that, if they continue to have concerns about a child, or feel a concern is not being addressed or does not appear to be improving, they should press for reconsideration of the case with the designated safeguarding lead.

If, for any reason, the designated safeguarding lead (or deputy) is not immediately available, this will not delay any appropriate action being taken. Safeguarding contact details are displayed in the school to ensure that all staff members have access to urgent safeguarding support, should it be required. Any individual may refer to Social Care where there is suspected or actual risk of harm to a child.

When new staff, volunteers or regular visitors join our school they are informed of the safeguarding arrangements in place, the name of the designated safeguarding lead (and deputy/deputies) and how to share concerns with them.

## **8. Training**

In line with statutory requirements, the designated safeguarding lead (and deputy/deputies) undertake Level 3 child protection training at least every two years. The Headteacher, all staff members and governors receive appropriate child protection training which is regularly updated and in line with advice from the Essex Safeguarding Children Board (ESCB). In addition, all staff members and other adults working with children in our school receive safeguarding and child protection updates as required, but at least annually, to provide them with relevant skills and knowledge to safeguard children effectively. Records of any child protection training undertaken are kept for all staff and governors.

The school ensures that the designated safeguarding lead (and deputy) also undertakes training in inter-agency working and other matters as appropriate.

## **9. Information sharing and confidentiality**

Sharing information is a key part of safeguarding work and decisions about how much information to share, with whom and when, can have a profound impact on a child's life.

Where there are concerns about the safety of a child, the sharing of information in a timely and effective manner between organisations can reduce the risk of harm. Whilst the Data Protection Act 2018 places duties on organisations and individuals to process personal information fairly and lawfully, it is not a barrier to sharing information where the failure to do so would result in a child or vulnerable adult being placed at risk of harm. Similarly, human rights concerns, such as respecting the right to a private and family life, would not prevent sharing information where there are real safeguarding concerns. Fears about sharing information cannot (and will not) stand in the way of the need to safeguard and promote the welfare of children at risk of abuse or neglect. Generic data flows related to child protection are recorded in our Records of Processing Activity and are regularly reviewed; and our online school privacy notices accurately reflect our use of data for child protection purposes.

A member of staff will never guarantee confidentiality to anyone (including parents/carers or students) about a safeguarding concern, nor promise to keep a secret. In accordance with statutory requirements, where there is a child protection concern, this must be reported to the designated

safeguarding lead and may require further referral to, and subsequent investigation by, appropriate authorities.

Information on individual child protection cases may be shared by the designated safeguarding lead (or deputy) with other relevant staff members. This will be on a 'need to know' basis only and where it is in the child's best interests to do so.

Information sharing can help to ensure that a child receives the right help at the right time and can prevent a concern from becoming more serious and difficult to address.

#### **10. Child protection records**

Well-kept records are essential to good child protection practice. Our school is clear about the need to record any concern held about a child or children within our school and when these records should be shared with other agencies.

Any member of staff receiving a disclosure of abuse or noticing signs or indicators of abuse will record it as soon as possible, noting what was said or seen (if appropriate, using a body map to record), giving the date, time and location. All records will be dated and signed and will include the action taken. This is then presented to the designated safeguarding lead (or deputy), who will decide on appropriate action and record this accordingly.

Any records relating to child protection are kept on an individual child protection file for that child (which is separate to the student file). All child protection records are stored securely and confidentially and will be retained for 25 years after the student's date of birth, or until they transfer to another school/educational setting.

In line with statutory guidance, where a student transfers from our school to another school/educational setting (including colleges), their child protection records will be forwarded to the new setting. These will be marked 'Confidential' and for the attention of the receiving school's designated safeguarding lead, with a return address on the envelope so it can be returned to us if it goes astray. We will obtain evidence that the paperwork has been received by the new school and then destroy any copies held in our school. Where appropriate, the designated safeguarding lead may also make contact with the new setting in advance of the child's move there, to enable planning so appropriate support is in place when the child arrives.

Where a student joins our school, we will request child protection records from the previous educational establishment (if none are received).

#### **11. Interagency working**

It is the responsibility of the designated safeguarding lead to ensure our school is represented at, and that a report is submitted to, any statutory meeting called for children on the school roll or previously known to them. Where possible and appropriate, any report will be shared in advance with the parent(s)/carer(s). The member of staff attending the meeting will be fully briefed on any issues or concerns the school has and be prepared to contribute to the discussions.

If a child is subject to a Care, Child Protection or a Child in Need plan, the designated safeguarding lead will ensure the child is monitored regarding their school attendance, emotional well-being, academic progress, welfare and presentation. If the school is part of the core group, the designated

safeguarding lead will ensure the school is represented, provides appropriate information and contributes to the plan at these meetings. Any concerns about the Child Protection plan and/or the child's welfare will be discussed and recorded at the core group meeting, unless to do so would place the child at further risk of significant harm. In this case the designated safeguarding lead will inform the child's key worker immediately and then record that they have done so and the actions agreed.

## **12. Allegations about members of the workforce**

All staff members are made aware of the boundaries of appropriate behaviour and conduct. These matters form part of staff induction and are outlined in the Staff Behaviour Policy/Code of Conduct. Our school works in accordance with statutory guidance and the SET procedures (ESCB, 2022) in respect of allegations against an adult working with children (in a paid or voluntary capacity).

The school has processes in place for reporting any concerns about a member of staff (or any adult working with children). Any concerns about the conduct of a member of staff must be referred to the Headteacher (or the Deputy Headteacher in their absence), as they have responsibility for managing employment issues. Where the allegation concerns an agency member of staff, the Headteacher (or Deputy) will liaise with the agency, while following due process.

Where the concern involves the headteacher, it should be reported direct to the Chair of the Local Governance Committee.

The SET procedures (ESCB, 2022) require that, where an allegation against a member of staff is received, the headteacher, senior named person or the Chair of the Local Governance Committee must inform the duty Local Authority Designated Officer (LADO) on **03330 139 797** within one working day. However, wherever possible, contact with the LADO will be made immediately as they will then advise on how to proceed and whether the matter requires Police involvement. This will include advice on speaking to students and parents and HR. The school does not carry out any investigation before speaking to the LADO.

Staffing matters are confidential and the school operates within a statutory framework around data protection.

## **13. Allegations of abuse made against other students**

We recognise that children are capable of abusing their peers. Abuse will never be tolerated or passed off as "banter", "just having a laugh" or "part of growing up", as this can lead to a culture of unacceptable behaviours and an unsafe environment for students.

We also recognise the gendered nature of child-on-child abuse. However, all child-on-child abuse is unacceptable and will be taken seriously.

Most cases of students hurting other students will be dealt with under our school's behaviour policy, but this child protection and safeguarding policy will apply to any allegations that raise safeguarding concerns. This might include where the alleged behaviour:

- Is serious, and potentially a criminal offence
- Could put students in the school at risk
- Is violent

- Involves students being forced to use drugs or alcohol
- Involves sexual exploitation, sexual abuse or sexual harassment, such as indecent exposure, sexual assault, upskirting or sexually inappropriate pictures or videos (including the sharing of nudes and semi-nudes)

If a student makes an allegation of abuse against another student:

- You must record the allegation and tell the DSL, but do not investigate it
- The DSL will contact the local authority children's social care team and follow its advice, as well as the police if the allegation involves a potential criminal offence
- The DSL will put a risk assessment and support plan into place for all children involved (including the victim(s), the child(ren) against whom the allegation has been made and any others affected) with a named person they can talk to if needed. This will include considering school transport as a potentially vulnerable place for a victim or alleged perpetrator(s)
- The DSL will contact the children and adolescent mental health services (CAMHS), if appropriate

If the incident is a criminal offence and there are delays in the criminal process, the DSL will work closely with the police (and other agencies as required) while protecting children and/or taking any disciplinary measures against the alleged perpetrator. We will ask the police if we have any questions about the investigation.

### **13.1 Creating a supportive environment in school and minimising the risk of child-on-child abuse**

We recognise the importance of taking proactive action to minimise the risk of child-on-child abuse, and of creating a supportive environment where victims feel confident in reporting incidents.

To achieve this, we will:

- Challenge any form of derogatory or sexualised language or inappropriate behaviour between peers, including requesting or sending sexual images
- Be vigilant to issues that particularly affect different genders – for example, sexualised or aggressive touching or grabbing towards female students, and initiation or hazing type violence with respect to boys
- Ensure our curriculum helps to educate students about appropriate behaviour and consent
- Ensure students are able to easily and confidently report abuse using our reporting systems (as described in section 7.10 below)
- Ensure staff reassure victims that they are being taken seriously
- Be alert to reports of sexual violence and/or harassment that may point to environmental or systemic problems that could be addressed by updating policies, processes and the curriculum, or could reflect wider issues in the local area that should be shared with safeguarding partners
- Support children who have witnessed sexual violence, especially rape or assault by penetration. We will do all we can to make sure the victim, alleged perpetrator(s) and any witnesses are not bullied or harassed
- Consider intra familial harms and any necessary support for siblings following a report of sexual violence and/or harassment
- Ensure staff are trained to understand:

- How to recognise the indicators and signs of child-on-child abuse, and know how to identify it and respond to reports
- That even if there are no reports of child-on-child abuse in school, it does not mean it is not happening – staff should maintain an attitude of “it could happen here”
- That if they have any concerns about a child’s welfare, they should act on them immediately rather than wait to be told, and that victims may not always make a direct report. For example:
  - Children can show signs or act in ways they hope adults will notice and react to
  - A friend may make a report
  - A member of staff may overhear a conversation
  - A child’s behaviour might indicate that something is wrong
- That certain children may face additional barriers to telling someone because of their vulnerability, disability, gender, ethnicity and/or sexual orientation
- That a student harming a peer could be a sign that the child is being abused themselves, and that this would fall under the scope of this policy
- The important role they have to play in preventing child-on-child abuse and responding where they believe a child may be at risk from it
- That they should speak to the DSL if they have any concerns
- That social media is likely to play a role in the fall-out from any incident or alleged incident, including for potential contact between the victim, alleged perpetrator(s) and friends from either side

The DSL will take the lead role in any disciplining of the alleged perpetrator(s). We will provide support at the same time as taking any disciplinary action.

Disciplinary action can be taken while other investigations are going on, e.g. by the police. The fact that another body is investigating or has investigated an incident doesn’t (in itself) prevent our school from coming to its own conclusion about what happened and imposing a penalty accordingly. We will consider these matters on a case-by-case basis, taking into account whether:

- Taking action would prejudice an investigation and/or subsequent prosecution – we will liaise with the police and/or LA children’s social care to determine this
- There are circumstances that make it unreasonable or irrational for us to reach our own view about what happened while an independent investigation is ongoing

### **13.2 Sharing of nudes and semi-nudes (‘sexting’)**

If you are made aware of an incident involving the consensual or non-consensual sharing of nude or semi-nude images/videos (also known as ‘sexting’ or ‘youth produced sexual imagery’), you must report it to the DSL immediately.

You must **not**:

- View, copy, print, share, store or save the imagery yourself, or ask a student to share or download it (if you have already viewed the imagery by accident, you must report this to the DSL)
- Delete the imagery or ask the student to delete it
- Ask the student(s) who are involved in the incident to disclose information regarding the imagery (this is the DSL’s responsibility)

- Share information about the incident with other members of staff, the student(s) it involves or their, or other, parents and/or carers
- Say or do anything to blame or shame any young people involved

You should explain that you need to report the incident, and reassure the student(s) that they will receive support and help from the DSL.

### **Initial review meeting**

Following a report of an incident, the DSL will hold an initial review meeting with appropriate school staff – this may include the staff member who reported the incident and the safeguarding or leadership team that deals with safeguarding concerns. This meeting will consider the initial evidence and aim to determine:

- Whether there is an immediate risk to student(s)
- If a referral needs to be made to the police and/or children’s social care
- If it is necessary to view the image(s) in order to safeguard the young person (in most cases, images or videos should not be viewed)
- What further information is required to decide on the best response
- Whether the image(s) has been shared widely and via what services and/or platforms (this may be unknown)
- Whether immediate action should be taken to delete or remove images or videos from devices or online services
- Any relevant facts about the students involved which would influence risk assessment
- If there is a need to contact another school, college, setting or individual
- Whether to contact parents or carers of the students involved (in most cases parents/carers should be involved)

The DSL will make an immediate referral to police and/or children’s social care if:

- The incident involves an adult
- There is reason to believe that a young person has been coerced, blackmailed or groomed, or if there are concerns about their capacity to consent (for example, owing to special educational needs)
- What the DSL knows about the images or videos suggests the content depicts sexual acts which are unusual for the young person’s developmental stage, or are violent
- The imagery involves sexual acts and any student in the images or videos is under 13
- The DSL has reason to believe a student is at immediate risk of harm owing to the sharing of nudes and semi-nudes (for example, the young person is presenting as suicidal or self-harming)

If none of the above apply then the DSL, in consultation with the headteacher and other members of staff as appropriate, may decide to respond to the incident without involving the police or children’s social care. The decision will be made and recorded in line with the procedures set out in this policy.

### **Further review by the DSL**

If at the initial review stage a decision has been made not to refer to police and/or children’s social care, the DSL will conduct a further review to establish the facts and assess the risks.

They will hold interviews with the students involved (if appropriate).

If at any point in the process there is a concern that a student has been harmed or is at risk of harm, a referral will be made to children's social care and/or the police immediately.

### **Informing parents/carers**

The DSL will inform parents/carers at an early stage and keep them involved in the process, unless there is a good reason to believe that involving them would put the student at risk of harm.

### **Referring to the police**

If it is necessary to refer an incident to the police, this will be done through dialling 101.

### **Recording incidents**

All incidents of sharing of nudes and semi-nudes, and the decisions made in responding to them, will be recorded. The record-keeping arrangements set out in section 14 of this policy also apply to recording these incidents.

### **Curriculum coverage**

Pupils are taught about the issues surrounding the sharing of nudes and semi-nudes as part of our relationships and sex education curriculum and computing programmes. Teaching covers the following in relation to the sharing of nudes and semi-nudes:

- What it is
- How it is most likely to be encountered
- The consequences of requesting, forwarding or providing such images, including when it is and is not abusive and when it may be deemed as online sexual harassment
- Issues of legality
- The risk of damage to people's feelings and reputation
- Pupils also learn the strategies and skills needed to manage:
- Specific requests or pressure to provide (or forward) such images
- The receipt of such images

This policy on the sharing of nudes and semi-nudes is also shared with students so they are aware of the processes the school will follow in the event of an incident.

### **14. Reporting systems for our students**

Where there is a safeguarding concern, we will take the child's wishes and feelings into account when determining what action to take and what services to provide.

We recognise the importance of ensuring students feel safe and comfortable to come forward and report any concerns and/or allegations.

To achieve this, we will:

- Put systems in place for students to confidently report abuse
- Ensure our reporting systems are well promoted, easily understood and easily accessible for students
- Make it clear to students that their concerns will be taken seriously, and that they can safely express their views and give feedback

Students can report concerns to any member of staff, however they are encouraged to report to their Year Leader or another member of the Safeguarding Team. In addition, students can report concerns via the [reportaconcern@colne.school](mailto:reportaconcern@colne.school) email address.

Students are informed of the reporting systems and processes through assemblies, tutor time, posters and screens around school as well as through PSHE lessons.

Concerns can be made by students discreetly through our online systems and they are reassured by all staff, including our safeguarding team that matters will be dealt with appropriately.

### **15. Behaviour, use of physical intervention and reasonable force**

Our Behaviour Policy sets out our approach to behaviour for all children and also for those with more difficult or harmful behaviour. We recognise there are some children who have needs that require additional support and a more personalised approach and we always consider all behaviour, and our response to it, in the context of safeguarding.

There are occasions when staff will have cause to have physical contact with children and young people for a variety of reasons, this may include:

- to comfort a child or young person in distress (*appropriate to their age and individual specific needs identified through a risk assessment*);
- to direct a child or young person;
- for curricular reasons (*for example in PE, Music, Drama etc*);
- in an emergency, to avert danger to the child or young person or others;

The guidance produced by the Department for Education [Use of Reasonable Force \(DfE, 2013\)](#) states that:

*“Schools **should not** have a ‘no contact’ policy. There is a real risk that such a policy might place a member of staff in breach of their duty of care towards a child or young person or prevent them taking action needed to prevent a child or young person causing harm.”*

The term ‘reasonable force’ covers a broad range of actions used by staff that involve a degree of physical contact to control or restrain children. There are circumstances when it is appropriate for staff to use reasonable force to safeguard children and young people, such as guiding a child to safety or breaking up a fight. ‘Reasonable’ means using no more force than is needed. Our school works in accordance with statutory and local guidance on the use of reasonable force (*see section 2*) and recognises that where intervention is required, it should always be considered in a safeguarding context.

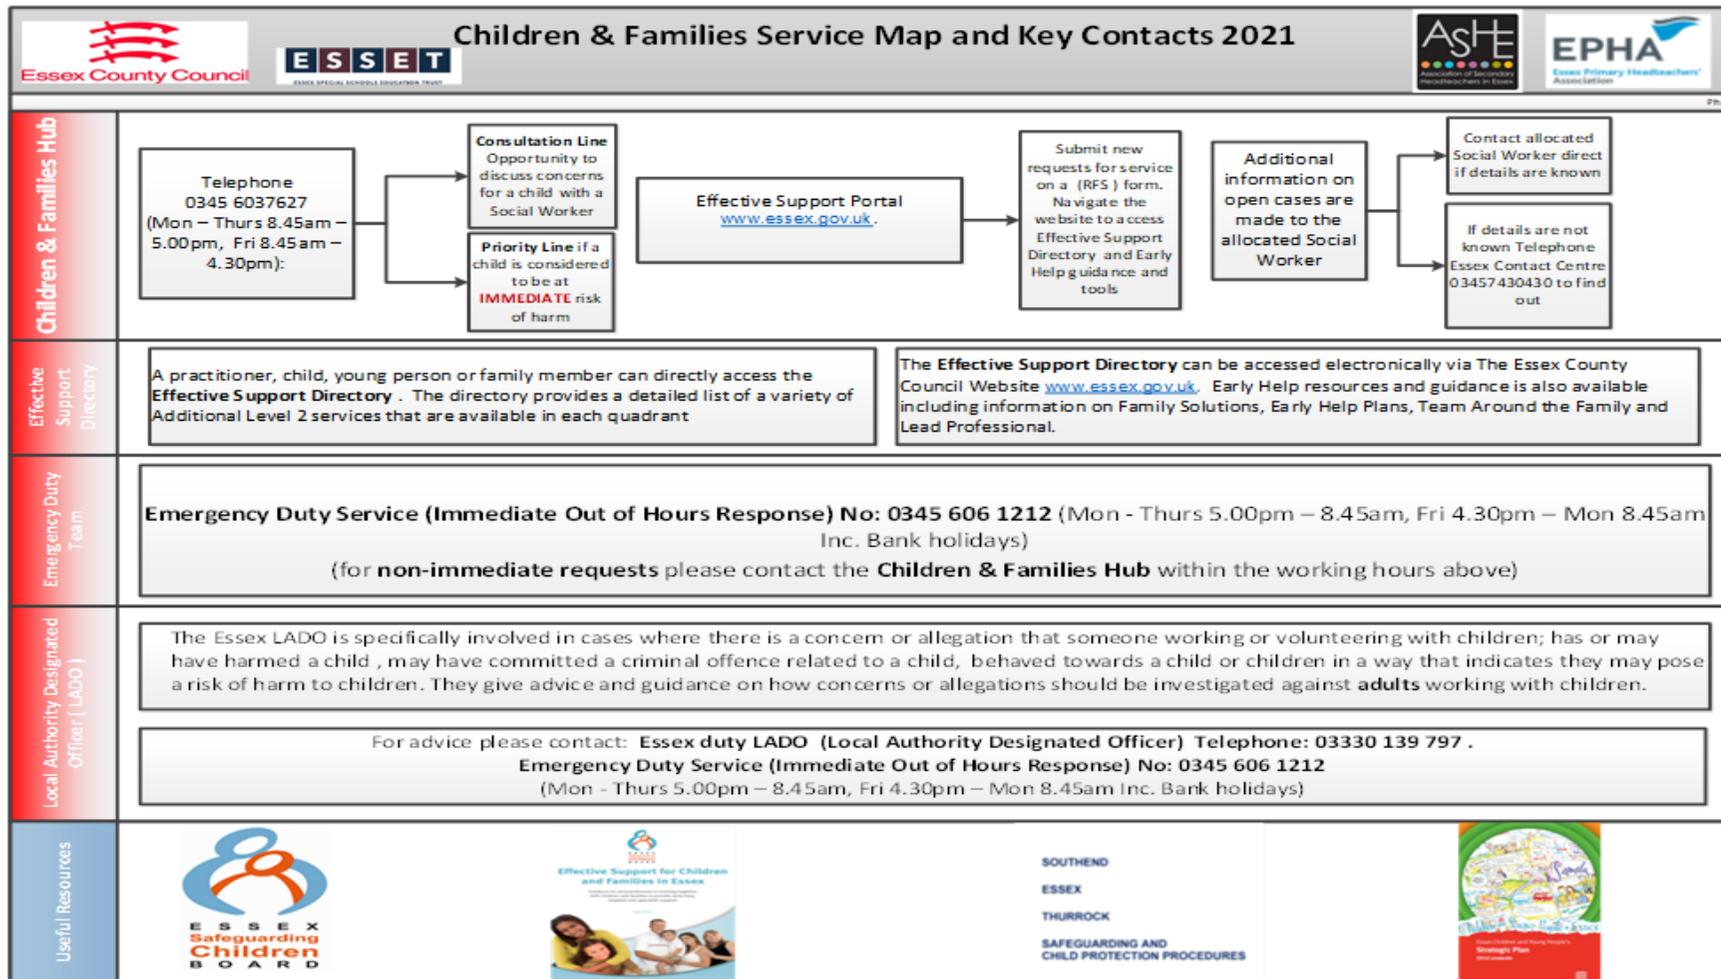

In accordance with our Physical Restraint Policy, a log is kept to record any instances in which a child was restrained.

### **16. Whistleblowing**

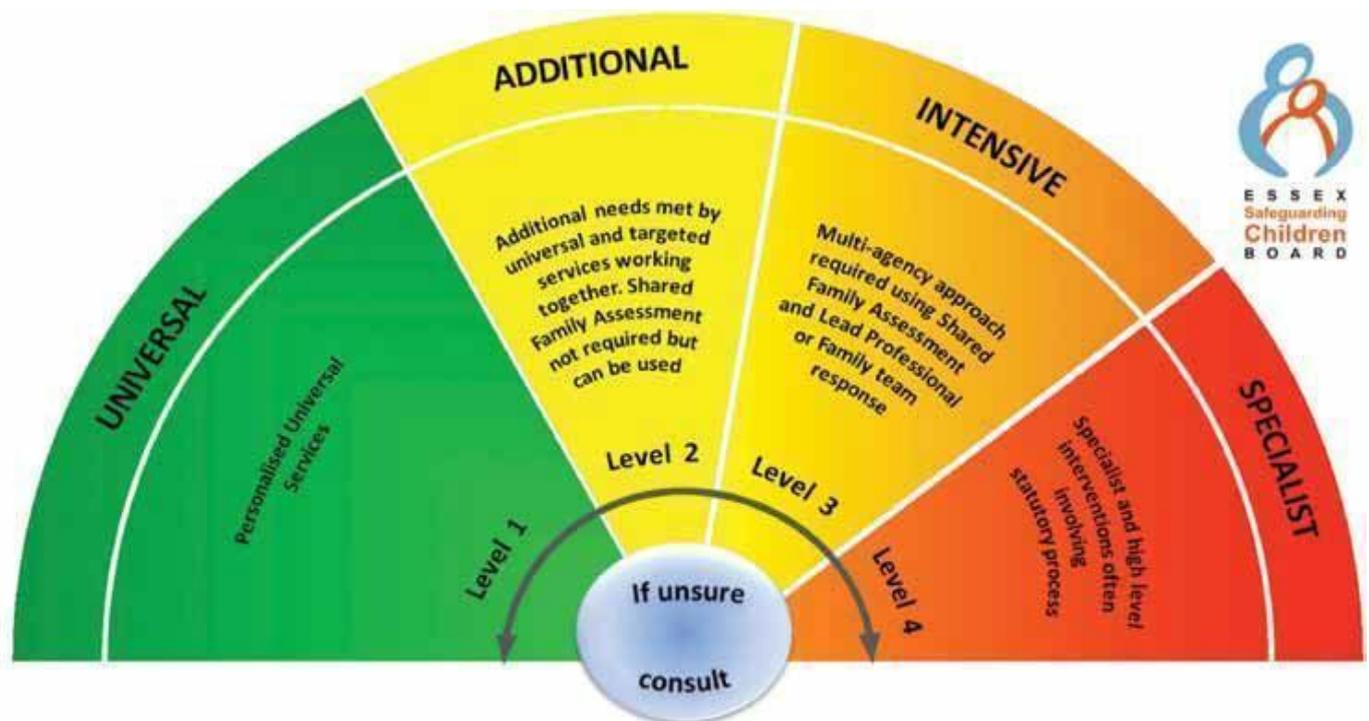

All members of staff and the wider school community should be able to raise concerns about poor or unsafe practice and feel confident any concern will be taken seriously by the school leadership team. We have ‘whistleblowing’ procedures in place and these are available in the Trust’s Whistleblowing Policy. However, for any member of staff who feels unable to raise concerns internally, or where they feel their concerns have not been addressed, they may contact the [NSPCC whistleblowing helpline](#) on: 0800 028 0285 (line is available from 8:00 AM to 8:00 PM, Monday to Friday) or by email at: [help@nspcc.org.uk](mailto:help@nspcc.org.uk).

Parents or others in the wider school community with concerns can contact the NSPCC general helpline on: 0808 800 5000 (24 hour helpline) or email: [help@nspcc.org.uk](mailto:help@nspcc.org.uk).

## Appendix A: Children and Families Service Map and Key Contacts

## Appendix B: Essex Windscreen of Need and levels of intervention

All partners working with children, young people and their families will offer support as soon as we are aware of any additional needs. We will always seek to work together to provide support to children, young people and their families at the lowest level possible in accordance with their needs.

Children with **Additional** needs are best supported by those who already work with them, such as Family Hubs or schools, organising additional support with local partners as needed. When an agency is supporting these children, an Early Help Plan and a Lead Professional are helpful to share information and co-ordinate work alongside the child and family.

For children whose needs are **Intensive**, a coordinated multi-disciplinary approach is usually best, involving either an Early Help Plan or a Shared Family Assessment (SFA), with a Lead Professional to work closely with the child and family to ensure they receive all the support they require. Examples of intensive services are children's mental health services and Family Solutions.

**Specialist** services are where the needs of the child are so great that statutory and/or specialist intervention is required to keep them safe or to ensure their continued development. Examples of specialist services are Children's Social Care or Youth Offending Service. By working together effectively with children that have additional needs and by providing coordinated multi-disciplinary/agency support and services for those with intensive needs, we seek to prevent more children and young people requiring statutory interventions and reactive specialist services.

## Appendix C: Missing Child Protocol

### Arrangements for children who go missing during the school day

#### Definition of Missing

*The definition of missing used in Essex is 'anyone whose whereabouts cannot be established will be considered as missing until located and his or her well-being confirmed'.*

(College of Policing Authorised Professional Practice Guidance)

#### 1. Introduction

This guidance sets out the procedures to follow when children go missing from schools and other educational settings, hereafter referred to as educational settings.

Missing children are among the most vulnerable in our community. Sometimes children go missing from educational settings; when this occurs, it is important that action is taken quickly to address this, and in line with local procedures.

This document should be read in conjunction with the educational setting's Child Protection Policy, and the Southend, Essex and Thurrock Child Protection Procedures (SET Procedures).

- [Essex Schools Infolink](#) – for the model Child Protection Policy and other resources
- [Essex Safeguarding Children Board](#) – for the SET Procedures and other resources

A child going missing could be a 'one-off' incident that, following investigation, does not need further work. However, a child going missing frequently could be an indicator of underlying exploitation or other forms of child abuse.

Educational settings should consider missing episodes like any other child protection concern and take action as appropriate, for example, by contacting parents/carers, the Children & Families Hub consultation line, and in an emergency, the priority line or the police. It may be appropriate to use the Early Help Procedures (including holding a Team Around the Family meeting) to address the issues and prevent escalation. Advice should be sought and concerns should be escalated if there is no improvement.

Where children missing frequently are open to Children's Social Care, a Missing Prevention Plan may be in place. Where this is the case, the educational setting may be set actions as part of the Missing Prevention Plan and should receive a copy if consent has been provided.

#### 2. When a child goes missing

When it is suspected that a child is missing from an educational setting this must be addressed immediately. Active steps to locate the child should be taken, for example, searching the premises and surrounding areas, contacting the child by phone, text and social media, and contacting their parents/carers. If none of these actions locate the child, then they must be reported missing to the Police by dialling 101, **or 999 if there is a belief that the child is immediately suffering significant harm.** It is important that the police are informed of any checks already completed as it may save time and prevent duplication of tasks set by the police to locate a child.

Staff at the educational setting must inform the child's parents/carers that the child has been reported missing. Where there is a Social Worker allocated to the child, they should also be informed.

After a child has been reported missing, any further information should be communicated to the police by telephoning 101 and quoting the incident number that the police would have provided following the initial report. Further information must be passed to the police as soon as possible, as officers will continue to search for the child until informed of their return.

### **3. When the child is found**

If the child is found by educational setting staff, or if the child returns to the premises of their own accord, the police must be notified immediately by dialling 101 or 999 if the matter is an emergency. It is important that this action is prioritised, as the child will remain classified as a missing person until seen by the police.

### **4. Essex Police**

On receiving a report of a missing child, Essex Police will classify the child as missing and will respond based on the level of risk involved.

Essex Police will conduct a vulnerability interview for all children who have been missing and have returned. It may be that the child refuses to engage or speak with police. On these occasions the parents/carers can assist by reporting to officers their observations on the child's return, e.g. did the child shower, have gifts, appear unwell or under the influence of any substance etc. The setting may also be able to contribute to this process and should provide the police with any relevant information or observations.

Each child that returns from missing will be offered a 'missing chat' (an independent return from missing interview) by a person not involved in their care. This will be facilitated by the Local Authority with responsibility for the child. Missing chats are offered to all children from Essex who go missing.
